

MOLEX CONNECTED ENTERPRISE SOLUTIONS

WEBINARS 2021

SAFE AND EASY WAYS TO SUPPORT THE LATEST A/V TECHNOLOGIES OVER STRUCTURED CABLING SYSTEMS

We invite you to join us for a 1 hour and 15 minute webinar regarding safely and easily supporting the latest audio/visual technologies. In an era of 4K video and beyond, these high-definition video signals require the moving of more and more pixels, and as the number of pixels increases so does the bandwidth required to drive them.

We will discuss traditional HDMI, CODECs, bandwidth, latency, quality, chroma sub-sampling, chrominance, luminance, colour/bit-depth, RGB, CMYK, refresh rates, dynamic range, HDCP, containers, video formats, and the best way to handle electrical interference. Most importantly, we will discuss how to decode the AV "dialect" using the latest development standards including HD Base-T 2.0 and 3.0, AV over IP, and SDVoE.

A white paper on this topic is available to all participants upon attendance.

24 MAR 2021

Session 1

6:00am London (GMT)
7:00am Paris (GMT+1)
8:00am Johannesburg (GMT+2)
9:00am Moscow (GMT+3)
10:00am Dubai (GMT+4)
11:30am Mumbai (GMT+5.5)
2:00pm Beijing (GMT+7)
5:00pm Melbourne (GMT+11)

24 MAR 2021

Session 2

3:00pm London (GMT)
4:00pm Paris (GMT+1)
5:00pm Johannesburg (GMT+2)
10:00am New York (GMT-5)
10:00am Toronto (GMT-5)
9:00am Chicago (GMT-6)
8:00am Phoenix (GMT-7)
7:00am San Francisco (GMT-8)

Christophe HINET, RCDD Global Pre & Post Technical Sales Manager

HD Base-T & SDVoE Certified Designer

PRESENTER

As Global Pre & Post Technical Sales Manager, Christophe Hinet ^{RCDD} leads the Molex Connected Enterprise Solutions Global Technical support team. He has responsibility for coordinating, engaging, and supporting collaboration within the Global Technical group.

Christophe's strategic role sits squarely at the intersection of Technical, Sales, Marketing, Supply Chain, Product Management and R&D. He combines engineering skills, operations management, and marketing expertise to support new business development activities, aimed at increasing Molex's market presence and profitability.

He drives a proactive & dynamic Pre-Sales approach, anticipating market trends to deliver solutions & services that are truly valued by customers and stimulating the challenge process.

Christophe has been a Registered Communications Distribution Designer (RCDD) since 2002 and has nearly 30 years of experience in the Structured Cabling Industry. He also holds City and Guilds qualifications in Singlemode and Multimode Fibre Optic Installation and Testing. He has published articles for trade magazines NCN and Cabling World. Christophe holds a degree in Economics & Law and in International Trade.

28 Years in the Industry

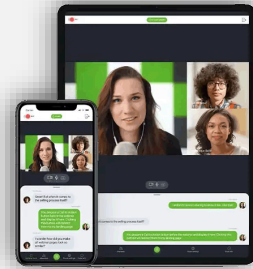

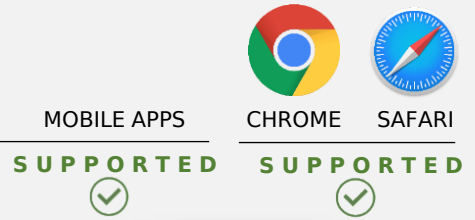

January 2021 – 24/03/21

Before the event...

Open the Webinar in the updated version of one of supported browsers.

Mobile access? We do support Chrome and Safari on Smartphones, as well as dedicated mobile apps.

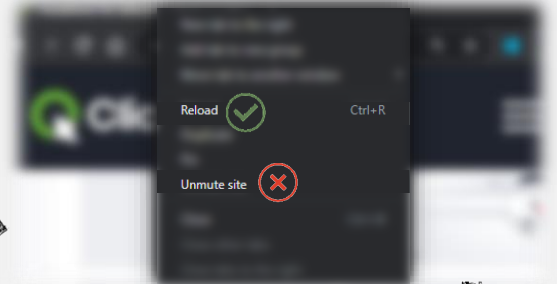

In the Webinar room...

Not seeing or hearing anything?

Reload the page and check if the tab or the site is not muted.

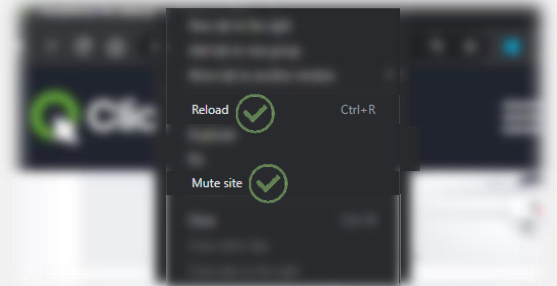

Example shown in Google Chrome

Audio or Video are not smooth enough? Release some bandwidth. Close unnecessary programs on the device and additional browser tabs.

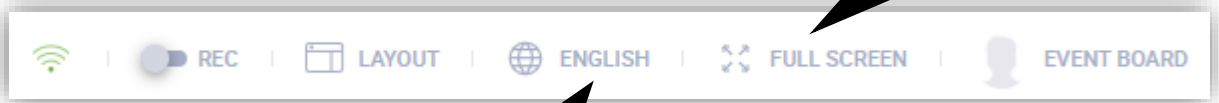

Is the video pod in the way? Click on the icon to dock the window to the right corner.
