

EnOcean Wireless 20A Relay

The EnOcean Wireless 20A Relay uses wireless technology to communicate with other wireless, self-powered components

The compact size enables flexible installation inside of or next to electrical boxes and fixtures so the EnOcean Wireless 20A Relay can be easily wired out of sight using standard wiring practices. This device may be linked directly to other CoreSync wireless devices. Pair to the CoreSync EnOcean Wireless Gateway for full integration with control and monitoring from the CoreSync system.

FEATURES & ADVANTAGES

CoreSync Interoperable	Communicates wirelessly with other CoreSync devices. Supports California Title 24 daylight harvesting scenarios via wireless input
120-277VAC voltage range	Allows wireless control of line-voltage lighting fixtures within same CoreSync Network
Daisy Chain capability	Enables wireless dimming of a single fixture or zone of Daisy-Chained fixtures
Compact size	Accommodates mounting positions inside of or next to electrical boxes or fixtures
Surge protection	Provides safe operation exceeding IEC 61000-4-5 installation Class 4
Plug Load Application	High rated amperage to support plug load controls

SPECIFICATIONS

Electrical

Power Supply: 100/277VAC, 50 -60Hz

Maximum Load:

Resistive: 20A @ 100/277VAC

Induction: 20A @ 100/277VAC

Fluorescent: 20A @ 100/277VAC

LED: 20A @ 100/277VAC*

Max Inrush Current: 160A

0-10V Output: Current sinking 100mA (IEC 60929 Annex E) Sourcing 1mA or 50mA (ANSI E1.3-2001 R2011)

Communications:

EnOcean 902MHz & 868MHz

Max Transmission Range:

15.2 m (50 ft) Open air, line of sight

Nominal Transmission Range: 7.62 m (25ft)

Product Safety

Relay Arc Suppression

DO NOT hot swap

Mechanical

Length: 54 mm (2.11 in.)

Height: 44 mm (1.73 in.)

Depth: 28 mm (1.09 in.)

Mounting: Inside non-metallic electrical box or connect to box or fixture using threaded nipple

Environmental

Operating Temp Range:

0° to 50°C (32° to 122°F)

Storage Temperature:

-20° to 80°C (-4° to 176°F)

Relative Humidity: 10-80% Non-Condensing

Environmental Rating: Indoor

Commercial Standards

UL 60730 (safety)

UL 2043 (plenum)

CSA c22.2#14-05 (safety)

FCC: SZV-STM300U

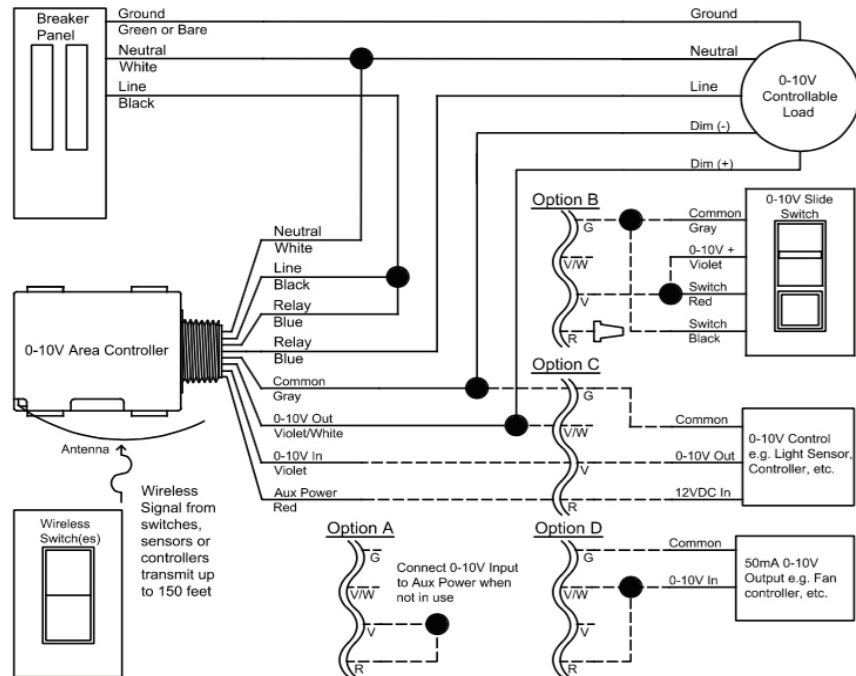

IC: 5713A-STM300U

CE/UKCA

EnOcean Wireless 20A Relay

TYPICAL APPLICATION

WIRELESS COMMISSIONING

EnOcean based devices will require wireless pairing to the CoreSync EnOcean Wireless Gateway to enable each device to be integrated for control and monitoring with the CoreSync system. This allows for remote network control of lights, sensors, local dimmers, plug loads, and zone controllers. The CoreSync EnOcean Wireless Gateway is fully compliant with Cisco UPoE 60W standards and can connect/control up to 20 devices. Once you obtain the end device wireless ID, use the Molex commissioning tool MoDiag to pair to an available Wireless Gateway.
