

Features and Benefits

The 1U Heavy Duty Equipment Shelf supports up to 135kg (300 lbs.) and adjusts for wall or 19" rack mounting. When rack-mounted, the shelf aligns flush with the front of the rack and occupies one rack position (plus height of equipment supported). The side supports offer extra equipment security. Ideal for supporting a computer monitor.

The 2U Equipment Shelf supports up to 45kg (100 lbs.) and is 19" rack mountable. The shelf is center mounted so that half the unit protrudes from the front of the rack while the other half protrudes from the back of the rack. The shelf occupies two rack positions (plus height of equipment supported). Ideal for use as a "desk" within the rack.

- 19" rack or wall mount flexibility
- Flush or Center Mounting
- Ideal partners for computer equipment

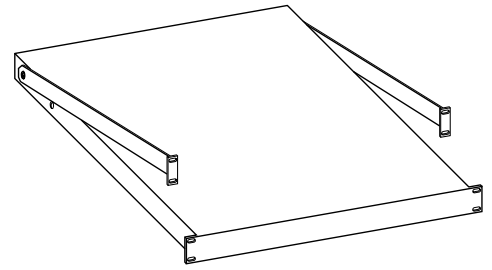

Material

Rugged aluminum with graphite grey powdercoat finish.
