

WM-12 Wall Mount Fiber Box >

The WM-12 secure wall mount enclosure accommodates up to 12, 25 x 50mm USO II bezels for the support of multi-media applications.

The USO II multi-media outlet system allows modularity and choice by accommodating the range of Synergy single port modules, a mix of copper, fiber adapters or RJ45 jacks within the same enclosure. Fiber and copper cable bend radius is protected via correctly positioned cable supports included in the enclosure.
