

Features and Benefits

The stylish unloaded Synergy Wallplates were designed specifically to accept the UTP Datagate Connector.

The unloaded Synergy Wallplates are available in 1, 2 and 4 port variants, in five colours, to co-ordinate with any decor and any installation size. The Wallplate kit comes complete with screws and screw-hole covers that provide individual installation labelling, as well as snap-in icon labels, that are colour co-ordinated with the Wallplate. Datagate Jacks must be purchased separately.

The Enhanced Category 5 Datagate Jack is available in several colours and is made from rugged PC/ABS plastic. The Jacks are UL listed and come complete with integral shutter for protection against dust ingress.

- Stylish design
- Protected labelling facility
- Icon Port Identification labelling
- Screws provided
- 1,2 & 4 Port versions
